ABOUT ME

Full Stack Developer focused on building modern, scalable, and user-centric web applications using React, Next.js, Node.js, and MongoDB. Experienced in developing responsive interfaces, backend APIs, and real-world projects with clean architecture and modern development practices. Passionate about continuous learning, problem solving, and creating software that delivers meaningful user experiences.

SKILLS

Frontend: React.js, Next.js, HTML, CSS, JavaScript (ES6+)

Backend: Node.js, Express.js

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, Canva, MS Office (Word, Excel, PowerPoint)

Full Stack Expertise: MERN Stack (MongoDB, Express.js, React.js, Node.js)

Soft Skills: Team Leadership, Team Collaboration, Team Management, Communication

PROJECTS

Prison Management System

Tech Stack: Next.js

- Built a full-stack system to manage prisoner records, staff data, and facility operations.
- Implemented CRUD functionality with secure data handling and role-based structure.
- Designed responsive UI for efficient data management and usability.

TaxEase Nepal

- Developed during a hackathon Asianhack2025 with team name codeions designed to simplify Nepalese taxation processes.
 - Collaborated with a team to prototype a web solution
 - Focused on user experience and data visualization using React.js

Feedback Mystery Message App

Tech Stack: Next.js, MongoDB, Authentication (JWT/Session)

- Created an anonymous messaging platform where users can send and receive hidden messages.
- Implemented secure authentication and message handling system.
- Designed clean and interactive UI for user engagement.

Product Inventory App

Tech Stack: MERN Stack

- Built an inventory management system to track products, stock levels, and updates.
- Implemented CRUD operations with real-time data updates.
- Added structured database design for efficient product tracking.

WORK EXPERIENCE

Stratigo collectives - Full Stack Intern

- Assisted in developing and maintaining modern web applications using JavaScript and React-based technologies.
- Collaborated with team members to improve UI responsiveness and overall user experience.

Sagea – Frontend Engineer Intern | 2025 – Present

- Develop responsive and interactive web applications using React.js and Next.js.
 - Integrate APIs and optimize frontend performance.
-

EDUCATION

B.Sc. CSIT – Veda College, Lalitpur (2022 – Present)

Relevant Coursework: Data Structures, Physics, Operating Systems, Database Management, Object-Oriented Programming, Software Engineering...

+2 Science – Golden Gate International College, Kathmandu(2020 – 2022)

Completed Higher Secondary education in Science with a strong foundation in Physics, Chemistry, and Mathematics.

GPA: 3.17
